Relevant Experience

HireScore Remote
Full Stack Developer Intern July 2025 – Current

- Collaborated with team members to develop and maintain responsive, user-friendly web components, contributing to a polished and consistent user experience.
- Led efforts to implement cross-platform support and macOS accessibility, ensuring the company's web application operated seamlessly across Windows, macOS, and Linux environments.
- Strengthened technical communication skills by collaborating closely with developers and designers to integrate UI libraries, improve form validation, and streamline workflows.
- Delivered dependable, production-ready code using React and Mantine, focusing on clean architecture, usability, and accessibility.

Oregon State University Corvallis, OR
Lead Curriculum Developer Sep 2021 – Feb 2022

- Participated in a Computer Science research project under Professor Jennifer Parham-Mocello, focusing on educational curriculum development. Begin each line with an action verb and include details that will help the reader understand your accomplishments, skills, knowledge, abilities, or achievements.
- Developed a curriculum for Middle School students to learn a novel programming language called BoGL, enhancing engagement and understanding of computer science concepts.
- Collaborated with a large, multidisciplinary team to revise and improve the curriculum, ensuring it met educational standards and was adaptable for diverse student needs.

Leadership & Activities

Oregon State University Corvallis, OR
Software Engineering Project Team Lead Sep 2025 – Jun 2026

- Led a team of 4 developers in architecting and delivering a full-stack Flask/React application for the Oregon Health & Science University (OHSU) Nursing Program.
- Defined backend architecture and designed RESTful APIs with PostgreSQL integration to support secure, role-based user access.
- Coordinated sprint planning, code reviews, and deployment workflows to ensure on-time milestone delivery and code quality.
